

Product Name:	PCR Mycoplasma Detection Kit
Product Number:	M034
CAS Number:	N/A
Molecular Formula:	N/A
Molecular Weight:	N/A
Form:	Solution
Solubility:	Solution
Source:	N/A
Storage Conditions:	-20 °C
Description:	The PCR Mycoplasma Detection Kit allows for fast and reliable identification of mycoplasma contamination in cell cultures. The PCR Mycoplasma Detection Kit contains the following: • 100 µL - <i>Mycoplasma</i> primer mix • 100 µL - <i>Mycoplasma</i> positive control • 1.25 mL - 2X PCR Taq Mastermix • 1.00 mL - ddH₂O
References:	For Mycoplasma elimination, try our safe, low cell-toxicity anti-Mycoplasma reagent <u>De-Plasma™</u>.
